

DEVONBOSCH

## LIFE RANGE 2025

**Where furniture becomes art, and architecture finds a new form.**  
Discover designs that blend the boundaries between structure and style.

## DEVONBOSCH UNVEILS LIFE RANGE: WHERE ART IMITATES LIFE

Devonbosch, known for its innovative approach to living and community building, has launched an extension of its vision through a range of bespoke art, photography, and furniture.

This new LIFE range is a testament to the idea that art is a reflection of human existence, capturing the essence of our souls and the environments we create.

### ■ A VISION CEMENTED IN EARTH, WOOD, STONE, STEEL AND CONCRETE

Art has always served as a mirror to the soul, reflecting its erratic or calm states. At Devonbosch, this concept is brought to LIFE through the textures and materials used in their new foyer designs, which include elements of earth, wood, stone, steel and concrete. These materials are chosen for their aesthetic appeal as well as their symbolic representation of Devonbosch's ethos - raw, honest, refined, and grounded in sustainability.

The pieces in the LIFE range are an extension of Devonbosch's unique vision. Rooted in mental health - an intricate part of LIFE lived in abundance - and forged from the creativity that defines this development, each piece is honest, embodying the core values of the Devonbosch community.

### ■ ARTISTS AS VISIONARIES

Artists are often seen as the visionaries of society, creating what cannot be easily described and helping us experience the world in new ways. At Devonbosch, the artists involved in the LIFE range are tapping into the zeitgeist of holistic living. Their work is felt and experienced, not merely explained. This is the soul of art - its ability to move us without words.

The LIFE range includes dramatic black-and-white photography by Yorgii, capturing urban landscapes and vibrant portraits (A5 Art Gallery NOW OPEN - 15 Alberto Drive / Ground Floor) - art by Mis.sela, who is now transferring her fashion expertise to art, and the furniture range by Devonbosch's own Creative Director and the visionary behind Life Unlimited - Reghard Goussard. Each piece tells a story that adds to the luxury living experience that Devonbosch offers.

### ■ LUXURY LIVING REIMAGINED

Devonbosch's LIFE range is a product line, a lifestyle and a statement of intent. It's an ecosystem extension where memories are made and bespoke products enhance daily living.

The inspiration behind this range comes from a deep understanding of what clients want - excellence through simplicity. Each piece, whether it is a bench crafted from wood, steel and stone or a leather sofa, is designed with an eye for architecture and design, reflecting Devonbosch's commitment to luxury and quality.

### ■ THE CONCEPT OF LIFE

The LIFE range is based on five main themes - earth, wood, stone, steel and concrete - each represented in the architecture and foyers of Devonbosch buildings. These themes are integral to the philosophy of creating spaces that are both functional and beautiful.

The use of real leather, combined with materials like cement, stone and wood, showcases a mix of textures that are both luxurious and earthy. This combination is seen in public spaces like the outside benches, which serve as a welcoming feature for residents and visitors alike.

### ■ BUILDING MEMORIES AND CREATING BESPOKE PRODUCTS

Devonbosch is unlike any other development. It is creating a town, an ecosystem where every detail is thoughtfully designed. The LIFE range is a manifestation of this vision, providing products that are not only functional but also beautiful and meaningful.

This range is a testament to Devonbosch's commitment to excellence, simplicity, and the creation of memories as well as art that lasts a lifetime.
